radiant Collection

radiant® 15A 3-Way Switch, White, with Microban®

Part No. TM873WAMCC4

This switch features enduring Microban® antimicrobial technology that works to reduce the growth of bacteria, around the clock, for the lifespan of the product. The perfect upgrade for your basic light switch, this Single-Pole Switch from the radiant® Collection provides on/off control of a light or fixture from a single location, while combining clean lines and smooth paddle action for a sophisticated touch. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately. This product is not currently available for sale in Canada.

Features & Benefits

Helps fight the growth of stain and odor-causing bacteria through the invisible and continuous product protection of Microban® antimicrobial technology

Uses a paddle switch for smoother control with a low-profile aesthetic.

Features durable, high-impact resistant thermoplastic construction.

Complete the look with a sleek, screwless radiant® Wall Plate (also available with Microban), and coordinate with other designer switches and outlets available from the radiant® Collection.

Replaces any standard switch with ease, in as little as 10 minutes.

Allows you to control a light fixture from two locations in a room.

Designed to install easily with a narrower back body and captivated mounting screws.
