radiant Collection

radiant® Wired Remote Smart Switch with Netatmo, White

Part No. WNRL24WH

The Wired Remote Smart Switch allows you to hardwire remote control of a primary smart switch, dimmer, plug-in or receptacle. The Remote Smart Switch is line voltage powered and communicates wirelessly back to a primary device that the switch controls. The remote switch must first be paired with a Smart Gateway with Netatmo and then associated, through the Legrand Home + Control app, with another already installed primary smart device. This is ideal for locations where you are converting traditional 3-way or multi-location control to become part of your smart home. In new construction it allows for faster installation with the removal of the traveler wire requirement as each wired remote communicates wirelessly back to the primary device, saving on installation time and cost. Made exclusively for use with Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Smart Gateway with Netatmo REQUIRED

Eliminate Traveler Wires: Wired remotes are line voltage powered and communicate wirelessly back to a primary switch or dimmer – eliminating the need to run separate traveler wires in new construction for multi-location control.

3-Way Control for Smart Lighting: Designed to be used in 3-way or multi-location control environments when paired with a primary smart lighting with Netatmo switch or dimmer.

Pairs with Smart Lighting with Netatmo Primary Devices: Pairs with a Smart Lighting with Netatmo primary smart switch, dimmer, plug-in outlet or receptacle.

Part of the radiant with Netatmo solution, which flexibly fits a home's unique needs with a variety of supported smart switches, dimmers and outlets.

Reliable Performance: Features ultra-reliable performance through a robust and dedicated mesh network

Compatible with Smart Home Platforms: Can be onboarded to Amazon Alexa, Google Home and Apple Home, as well as other smart home platforms for greater home integration.

Multiple Collections & Color Options: Choose from either the adorne® or radiant® collection to fit a home's unique needs. Additional color options available with use of Smart Lighting with Netatmo Color Change Kits

Available in a range of contemporary colors and finishes. Coordinate with other designer switches & outlets.

Screwless Wall Plate Included: Includes a radiant® wall plate in the box.

Specifications

General Info

Product Family / Series / Group	Smart Lighting with Netatmo	Product Line	Pass & Seymour
Color	White	Finish	Satin
UPC Number	785007446807	Country Of Origin	China

Material	Polycarbonate	Product Type	Wall Switch
Features	Remote, Smart Lighting, With Netatmo	Switch Type	Paddle
Number of Switches	1	Wall Plate Color	White
Works With	Amazon Alexa, Apple Home Kit, Google Home	Application Sector	Commercial, Multi-Dwelling Unit, Residential
