Item Weight: 0.5 lbs.

Shade: Marble Green Paper
Shade Dimensions: 4" x 5" x 5"h

Shipping Method: P/OS

Petite shades are an easy way to bring added style to a space while also introducing color and texture, particularly when they are made from artisanal marbleized paper and ornamented with two layers of grosgrain ribbon in different hues. The saturation of the colors on the handmade tapered and cylindrical shades for chandeliers and wall sconces is achieved by a New England atelier. Patterns will vary because they are created during a very organic process that makes any surface treated to marbleizing so special. There are both vivid and pastel patterns in this collection, as you can see from this green, brown, gold version of the tapered shade. Top Diameter: 3" Bottom Diameter: 5" Height: 5"
