Shade: Ivory | Fine Grasscloth
Shade Dimensions: 3" x 5" x 6"h

Shipping Method: P/OS

Petite shades made of a finely woven grasscloth bring added warmth to a space. Due to the natural material's inherent texture, there is a knotty richness to their surfaces, though the lighter hues are so delicate they read like linen. In fact, the shades for chandeliers and wall sconces in this collection are of the finest weaves made by hand, evidenced by the tiny telltale knots along the surface that prove they are the ultimate definition of artisanal. The shades come in three different weaves, the one with the most texture trimmed in thin bands of cloth and the finer ones culminating with a rolled edge. Both designs exhibit a tailored feel, as you can see from this fine ivory version of the tapered shade. Top Diameter: 3" Bottom Diameter: 5" Height: 6"
