radiant Collection

radiant® Easy 3-Way Switch Kit, White

Part No. WNREZK10WH

This kit uses a wireless switch to easily add control of a light or fixture from a second location, even in rooms or locations currently without 3-way wiring. Simply replace the existing light switch with the kit's radiant® Switch (wired), then use the included battery-powered radiant® Wireless Switch to add another point of control wherever it is desired. The Wireless Switch mounts to any wall or surface – without cutting, wiring or tools – using the provided adhesive. The kit's devices come pre-paired to enable multi-location control in seconds. Want app control? These devices are equipped for enhanced functionality. Simply add a Smart Gateway with Netatmo and use the Legrand Home + Away app to control your lights from anywhere (and much more). For more information visit www.legrand.us/addappcontrol. Made exclusively for use with screwless Wall Plates from the radiant® Collection, sold separately.

Features & Benefits

Uses wireless switch to easily add control of a light from a second location.

Ready to install, no configuration needed.

First Switch (Wired) Installation: Replaces any standard (wired) switch in as little as 15 minutes.

Second Switch (Wireless) Installation: Mounts to any wall for long-lasting, battery-powered control.

Add a Smart Gateway with Netatmo to control lights via app, connect to other smart products and more.

Screwless Wall Plates included. Coordinate with other designer switches and outlets from the radiant® Collection for a cohesive, sophisticated look.

Specifications
